SUMMARY

Fourth-year Computer Science student at Holy Angel University seeking an OJT/internship opportunity in software development or Quality Assurance (QA). Familiar with React, Flutter, and Supabase, with an interest in UI/UX design, software testing, and developing user-friendly and reliable applications.

EDUCATION

Holy Angel University **Angeles City, Philippines**
Bachelor of Science in Computer Science
Expected Graduation: April 2027

- Dean's Lister

PROJECTS

Full-Stack Developer | PantryPal: Ingredient-Based Recipe Finder **Oct 2026**

- Developed an AI-assisted, responsive web application using React to help users discover Filipino recipes based on available ingredients.
- Implemented backend APIs using Python FastAPI and integrated Supabase for database management.
- Designed and developed interactive features for ingredient search, recipe recommendations, and recipe browsing with AI-assisted development.

Frontend Developer | OrangeTail: Automated Scheduling System Using Machine-Learning Aided Metaheuristic Algorithms For School of Computing **Sep 2026**

- Developed a web-based interface using React for schedule generation, professor loading, data management, and manual schedule editing.
- Integrated Supabase for database management and Python for implementing the Genetic Algorithm and Tabu Search scheduling algorithms.
- Integrated a Random Forest model to score professor placements based on historical data, supporting professor assignment for professional courses.
- Implemented administrative features for uploading scheduling data, viewing generated schedules, and managing scheduling results.

Frontend Developer & QA | HAUrmony: A University Days Concert Ticketing System **Oct 2025**

- Built the mobile interface using Flutter for account verification, zone-based ticket purchases, queue numbers, and downloadable PDF tickets.
- Developed the admin dashboard interface to display ticket sales, attendance, and analytics.

SKILLS

- **Programming Languages:** Python, Java, JavaScript, Dart, HTML, CSS
- **Frameworks & Libraries:** React, Tailwind CSS, Flutter
- **Backend & Databases:** Supabase (PostgreSQL), XAMPP
- **Tools & Platforms:** Git, GitHub, VS Code, Figma, Vite
- **Office & Productivity Tools:** Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Google Docs, Google Sheets
- **Technical Knowledge:** Front-End Development, Responsive Web Design, User Interface Design, Database Integration
- **Interpersonal Skills:** Teamwork, Communication, Collaboration, Receptiveness to Feedback
- **Personal Attributes:** Adaptability, Willingness to Learn, Flexibility, Attention to Detail
